

REASONABLE MODIFICATION Procedure

LADACIN Network recognizes that disabilities are as diverse as the individuals they serve and recognizes the need to make reasonable modifications to its policies, regarding assistance offered to passengers who may require additional assistance to use its services.

Under Title II of the ADA, state and local governments are required to make reasonable modifications to policies, practices and procedures where necessary to avoid discrimination.

For those riders who require additional assistance, LADACIN Network will endeavor to accommodate all reasonable modification requests for such assistance by following procedures outlined below:

1. Riders must inform the LADACIN Network Transportation Department of the need and specific type of additional assistance requested at the time ride reservation is made.
2. Transportation Coordinator will advise Transportation Manager of the specific rider need/request. Manager will log the information within the client information system and determine the resources required to accommodate rider.
3. The Manager will evaluate the request and report to the Coordinator of Transportation whether the request is reasonable to perform.
4. If the Coordinator of Transportation deems the service requested to be unreasonable to perform or to repeat on a regular basis, he/she must cite specific reasoning to support the finding and informs the Director.
5. If the LADACIN Director concurs with the finding of the Coordinator, the rider must be so informed via phone call at least 48 hours before the requested/scheduled trip. The finding must also be communicated to the rider expeditiously by written correspondence.
6. Riders may appeal any such decisions by following established ADA grievance procedures. Complaints that a County program, service or activity is not accessible to persons with disabilities should be directed to LADACIN Network's contact information.
